Safety While Driving**

**Easy
Installation
& Transferrable**

Why do you need GPS BAY Universal Dashboard Mount?

- ✓ No More Ugly Mark on windshield
- ✓ No More Obstructed View, increase visibility and safety while driving
- ✓ Easy installation & transferrable
- ✓ Fashionable compact design for all models of **GPS, Mobile phone** or even **Smart Tag**
- ✓ High quality material, solid & durable mount frame
- ✓ No more worry on tear off sunshield window tint by using windshield mount
- ✓ Anti-skid material on base prevents movement of mount
- ✓ Adjustable padded arm hold your device securely in place (Width length 50-120mm).
- ✓ Adjustable legs give added stability and prevent your device from falling

Easy installation:

Step1: Clear away dust from your dashboard where you will install the mount.

Step2: Remove the base cover and place the base of the mount on the spot you have chosen. Press down to adhere the base to the dashboard.

Step3: Turn the suction panel to left to lock mount on dashboard

Step4: Press release button to widen padded arm.

Step5: Insert your device and press the padded arm to fit it snug and tight.

Step6: Press release button for easy removal.

Warning:

Install your dashboard mount outside of the area where an airbag could be deployed.

To prevent theft, remove your device and mounting unit from your dashboard when you leave your vehicle.
